They were Ken Weaver, who will have the El Verano district; Al Block, Penn-grove and Cotate precincts; Oliver Brown, Agua Caliente district. ## SOUTHERN PACIFIC PENSION LIST

It Will Reach the Million Dollar  
Mark by April of This  
Year

The voluntary pension distributions of the Southern Pacific Co. will reach the million dollar mark before the first day of April, this year. Since the inauguration of the pension department in January 1903, \$948,538 has been voluntarily disbursed among the retired employees of that corporation. The total disbursements of December 1911, were \$17,073. This was divided among 467 former employees who have been retired for age, disqualifying disability and total disability. The total pension disbursements for the year 1911, were \$184,704.05.

Since the organization of the pension department the Southern Pacific Company has pensioned 692 of its former employees. The number on the pension roll at the close of 1911 was 467. These employees are from the operating department, train service, motive power department, including engine men, maintenance of way department, stores department, traffic department, accounting department, general offices, ferry and river steamers and Atlantic steamship lines. The Southern Pacific pension system does not require any contributions from the employees during the time they are in service, nor at any time. Length of continuous service is the only requirement. All payments are made from the general funds of the railroad.

A unique idea of the beneficiaries of the pension bureau—the annual reunion—has met with unanimous favor. The first affair of this character was held in 1910. This year it has been decided to hold the reunion on May 10, the forty-third anniversary of the driving of the last spike connecting the Central and Union Pacific railroads. At these affairs these railroads are rebuilt in reminiscence and the old timers who have not met for years recount their experiences of the time the first railroad to the west was constructed.

## Serious Affray Among Annadale Blockmakers

John Swanson, a blockmaker of Annadale in the upper part of the valley, is in the Mary Jesse Hospital, Santa Rosa, with a fractured skull, and Lucia Noonan, a fellow workman, languishes in the county jail, charged with being his assailant.

It is said the men became engaged in a quarrel and that Noonan picked up a piece of scantling and attempted to brain his adversary. This Swanson and his wife deny. They say Noonan received the injury by falling against a tree. The fracture is a bad one, so much so, that a portion of the injured man's brain oozed out. It is thought he will die.

## Sequel to an Elopement

A dispatch from Marysville under date of 16th inst. says: "Cecil Gale, 18, and Margaret Leete, 15, who eloped from Santa Rosa Christmas night, were apprehended here today, and were taken by Sheriff J. K. Smith of Sonoma county on the trip back home. It is understood that the parents of the Sheriff here for the elopers." The boy's parents reside near Kenwood while the girl's father is a well-known blacksmith of Santa Rosa.

The sequel to the elopement of the kids is that as soon as they were delivered over to their parents in Santa Rosa last Wednesday, all hands repaired to Justice Atchinson's court and the runaways were married, and let us trust will live happy ever afterward.

## That Bird Came High

S. Cabe, a blacksmith, residing near Santa Rosa, was fined \$25 Tuesday in Judge Atchinson's Court in that city, for shooting a robin, which is a protected bird. It appears that a county game warden happened along just as Cabe winged the robin, and while the offender bagged the bird he in turn was bagged by the officer.

## Surprise Party

A surprise party was tendered Mrs. Ernest Campbell by the members and officers of the Golden Hour Club, at her home here, on Saturday afternoon last. The afternoon was spent in conversation after which light refreshments were served. Those present were Misses Nancy Bates, Gladys Simmons, Valeria Helberg, Jessie Hiser, Marie Helberg, Helen Antrim, Georgie Andrews, Ramona Granice, Doris Clewe, Mrs. L. S. Simmons and Mrs. E. Campbell.

## Summer Resorts of Sonoma Valley and Local Option.

ONE of the arguments advanced by the Expositor as a justification for agitating Local Option and wiping out all of the summer hotels of Sonoma Valley, big and little, is the following. We quote:

"First, they are against all idea of morality. The majority of them have no regard for the laws or the rights of others. We concede that there are a few that live up to the law, but they are greatly in the minority, and it is impossible to overlook the fact that we cannot keep silent for the benefit of those few. The only way to remedy this is to shut up every road house in the valley."

Wherein have our resorts violated the law? How, when and where? If such be the case why have they not been complained of to the Board of Supervisors, evidence produced and their licenses revoked? This has not been done in one single instance and this being the case we naturally assume that there has been no violation of the law governing the sale of liquor in this valley, and we are quite sure the Supervisors, who grant and have the power to revoke all liquor licenses, will bear us out in this statement. Therefore we say, that the claim set up by our contemporary, as an excuse for its crusade against the principal business interests of the Sonoma Valley, that its hotels and summer resorts have no regard for the law, is maliciously false and deceiving. Will it specify wherein any one particular resort is violating the law and back up its charges with reputable witnesses? If it will do this the Index-Tribune will join with the Knights of the Royal Arch and the other local civic bodies which stand for decency in this community in putting that particular hotel or resort out of business.

Candidly, however, the crusade started in this valley against our summer resorts is in no manner prompted by an effort to improve the morals of Sonoma Valley, which as has already been set forth in these columns, is one of the most law-abiding and peaceable communities in all California. In fact we have no hesitancy in asserting that meanness, spite and revenge is at the bottom of the whole miserable business. If this were not so why evoke the aid of Local Option to bring wreck and disaster upon the business interests of a community under the disguise of reform that has not a brothel or a gambling house in its entire area, embracing a strip of territory ten miles wide by twenty in length with a population of three thousand souls. We again assert with asperity that the charges of immorality against the fair fame of the beautiful Sonoma Valley and its honest, industrious and reputable citizenship are as damnable as they are false.

## Move Will Be Made to Abolish the Unjust Poll Tax.

Every now and then of late years the unjustness of the State poll tax comes up for discussion in the Legislature but so far nothing has been done by our law makers at the State capital to abolish it. Now comes word from Los Angeles that assessor Hopkins of that county, has pledged himself to endeavor to have a constitutional amendment placed on the ballot at the election next fall to abolish the unjust tax.

"One trouble with the poll tax," said Mr. Hopkins, "is that it is not equitably enforced. Besides that, it is not just. The millionaire pays \$2, and so does the laborer who hasn't a dollar to his name. Last year \$687,073 was collected in the state for poll taxes. This money goes to pay the expenses of running the state, but now, under amendment number 1, the corporations are supposed to pay this expense and to continue collections it would be taking just that much from the public instead of from the corporations."

### Basket Ball.

Next Saturday evening the Sonoma Independents will clash with the Dannebaums of Vallejo, a fast aggregation having many victories to their credit and should put up a strong game. The local team will be composed of the following: Forwards, Logan and Dresel; center, Greeley; guards, Trowbridge and Clements.

## Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued. Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." Ask Your Neighbors. They probably know of some of its many cures. If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

## It Recalls Denis Kearny

Can it be that Senator La Follette has been studying the methods of that great popular leader, the late Denis Kearny of sandlot fame? One of Kearny's favorite stage tricks was to digest himself of portions of his raiment at exciting passages of his harangues. When he came to the denunciation of plutocrats as "thieves" and "lecherous bondholders," off would come his coat. Warming to his theme and calling them "slimy imps of hell," he would snatch off collar and vest. It was a stage trick that was quite effective with a certain class of persons who deemed it proof of the truly democratic simplicity of Kearny and of his intense earnestness.

These gallery plays of the man who in his day was believed by many persons to be a great reformer are recalled by a little incident that occurred during Senator La Follette's recent speech at Dayton, O. According to one press dispatch, he suddenly stopped, grew red in the face and said to his hearers: "Say, my collar is too tight. Can I take it off?" Amid shouts of "Yes" he removed the annoying neck band and went on speaking. The affair had a distinct flavor of refined Kearnyism. It is not, however, the only point of resemblance between the Wisconsin man and his sandlot prototype.—SAN DIEGO UNION.

In the near future the Hyde tract will have a new society leader who can certainly give Ned Greenway of San Francisco's 400 points on leading a cotillion. All the fair society buds are in a flutter to find out who he is. And the band plays on.

Attention—A meeting of the Standard Oil Company's Tin Can Band will be held on the 15th of next month. All members must report for active practice, as in the near future there will be something doing. So in time of peace prepare for war.

## SONOMA WOMEN MARRIES JAPANESE

It Was Her Second Venture in the Matrimonial Field, Hubby No. One Being a White Man

A dispatch from Vancouver under date of the 17th inst. says that Mrs. Georgiana Wallman Daleini, of this place and a daughter of Geo. Wallman, a farmer of this valley, was married in that city Wednesday to Atsuo Matsuyama, a Japanese who also formerly resided here and a brother of Frank Matsuyama, a well-known fruit drier residing off Broadway in the southern limits of town.

The bride is the divorced wife of an Italian-Swiss rancher, who claims to have had her choice of a white man and Japanese for her second trial at matrimony. "I tried a white man first and did not like him," she declared, "and will now try the Japanese."

The wedding was performed by a Justice of the Peace. Matsuyama claims to be a friend of Ungiro Aoki, who came here two years ago and married a daughter of Bishop Emory of San Rafael.

**Hay Market Remains Practically Unchanged**

The price of choice wheat hay is \$18 to \$21, as reported in Souers & Co's bulletin for the week ending January 15th. They say:

"Arrivals of hay in San Francisco continue to be very light, the past week's receipts amounting to 1840 tons, which is considerably less than the normal consumption. Local trade is exceptionally quiet, but there is absolutely no doubt that we will see a much more active trade some time in the near future. Consumers are permitting their supplies to rapidly become depleted, and, as many feeders loaded up in the harvest season, the trade since then has been quiet. As soon as these consumers are again in the market, we anticipate an active local demand."

"Trade in the country continues good and there is every reason to believe that, for the most part at least, this business will continue until the new crop is harvested. Recent rains have given confidence to most country feeders, but until the growth of grass is well started hay will have to be purchased in practically every section."

"There has been several recent sales of round lots of hay in the country for shipment to points other than San Francisco and at prices materially higher than the San Francisco market. This would indicate that the shortage in hay in outlying districts still exists, and that there is not yet sufficient green feed for feeding stock."

**An Old Timer Here**

## KNIGHTS OF THE ROYAL ARCH

Sonoma Valley Lodge Has a Big Meeting Wednesday Night and Initiates Fourteen Members.

Sonoma Valley Lodge, No. 98, Knights of the Royal Arch, had a big meeting last Wednesday evening, the occasion being the initiation of fourteen new members and a banquet tendered Thos. W. Roulo, Grand Valiant Commander of Los Angeles, and J. Harry Daley, Grand Past Valiant Commander of San Francisco, who came here to exemplify the work of the order.

The meeting was presided over by Valiant Commander Frothingham of the local lodge and was largely attended, about forty-five members being present. Valiant Commander Roulo, after the new candidates had been given their degrees, delivered an eloquent address touching upon the principles of the order, its aims and objects. He impressed upon his fellow Knights the strict enforcement of all laws governing the sale of liquors and emphatically stated those who defied these laws should be put out of business. Among other things he said that it was up to the liquor dealers themselves to bring their business up to such a high standard as to put their calling on the same level as that of the merchant or any other business man.

Valiant Commander Roulo was followed by Past Grand Commander Daley, who dwelt at length on the principles of the order and urged that they be strictly adhered to. The addresses of both gentlemen were the best temperance talk we have ever listened to, although we have heard many dissertations on the subject in our younger days when a member for many years of both the Sons of Temperance and Good Templars organizations and we know, and this order is doing wonders in bringing about reform in the handling and sale of liquor in this State.

After the meeting the members and their distinguished guests repaired to the lodge dining room and partook of a generous repast.

The demurrer was withdrawn in the suit of Post vs. Nowell, and five days was allowed to answer.

The suits of Smith vs. Parsons were set for trial for March 27.

The suit of the Green Valley Canning Co. vs. California Cannery Association was set for trial for March 15th.

These matters were continued: Bortoli vs. Bartoli to January 22; in re homestead of O. G. Fairchild to January 29.

The suit of Connor vs. Connor, was set for January 22.

The suit of Meyers vs. Bervin was continued to January 22.

# Flanders "4" Motorcycle.

\$175 f. o. b. Factory---Magneto Included of Course.

## Has Them All on the Run.

WHAT AN UPSETTING of prices the arrival of the Flanders "4" Motorcycle has occasioned. Why, the other makers seem to be in a panic.

IT'S FUNNY, TOO, when you recall the unkind things they said about the Flanders "4" when we first advertised it and stated the price.

OF COURSE THEY SAID a first-class four horse-power motorcycle could not be made for \$175, even with battery ignition. And a magneto included—utterly impossible.

WE WISH WE COULD print all the things they said in their frantic efforts to discredit the Flanders "4" and justify their own prices—which at that time were \$250 and \$275 for machines of same power and less quality.

YOU WILL REMEMBER they all said the only way it could be done was to make the machine out of poor materials and throw them together. They not only admitted, they protested, they could not duplicate the Flanders "4" at the price—or anywhere near it.

THAT WAS BEFORE we had begun to ship Flanders "4's" to our dealers and customers. They felt safe in making such statements—for though they knew in their hearts that this concern could not afford to turn out a second grade article—they had no idea what a sensation it was going to create.

SO THEY LAID TRAPS for themselves—and now we are driving them right into them.

THEY MUST EAT their own words—they said they would have to use poor material and poorer work in the making to meet the price of Flanders "4."

WELL, THEY HAVE ALMOST met the price—and they will have to meet it and go lower before they can sell their antiquated machines in competition with this up-to-the-minute motorcycle.

NOW IT DOESN'T REALLY MATTER, but are we to assume that what they said was true and that they are now making punk machines to meet Flanders "4" in competition—or that they told fibs about it.

FRANKLY WE DON'T BELIEVE they are making them any worse—some things are impossible. And we do know that until Flanders "4" arrived on the scene, prices of motorcycles were high above all reason.

WE SAID IN OUR AD that Flanders "4"—magneto included—selling for \$175, left a mighty small profit to us on each machine.

BUT WE ARE SATISFIED with a small profit on each machine so long as we can build 50,000 per year. And the price—\$175, magneto included—has created a demand sufficient to justify us in making that many.

HERE'S A POINT YOU HADN'T NOTICED perhaps: Other makers did not drop the prices until we had actually begun to make deliveries. Do you know why? There were two reasons.

FIRST: OUR AD CREATED a tremendous demand which we were as yet unable to supply. The other makers saw that and determined to supply some of it at high prices. And they did. Then they began to think it was going to continue.

SECOND: THEY HOPED that when this machine did appear it would not be up to all our claims—and would give them a new lease of life.

NOT ONLY THAT: But in addition to hoping, they set about picking it to pieces before they had actually seen it themselves.

IT IS A FACT that, before we had shipped one motorcycle we heard stories told by competitors of how this part was weak and that part wrong, etc. The wish was father to the thought—that was all.

OH! WHAT A BUMP they got when we began to send them over the country. The effect was electrical.

PRICES BEGAN TO TUMBLE: First they chopped off \$25.00—made theirs \$250 and \$225 instead of \$275. But it didn't do. Dealers wired them: "You must meet Flanders prices. No use to damn the machine—it has Flanders' name on it and the public knows."

OFF CAME ANOTHER \$25—and another. Here and there they put on a magneto and tried to hold the old price. No go—Flanders had said, "No motorcycle is complete without a magneto."

WELL, THEY HAVEN'T Yet reached our price. Can't, and stay in business, because most of them are not manufacturers—only assemblers. They buy motors and other parts and pay one or two extra profits on them.

IT COSTS THEM MORE to build the same machine than we can sell it for. Get that?

WE HAVE THE FACILITIES—a \$2,250,000 concern. We make every part. We buy right and pay cash and it costs us less to sell—because folks know a dollar's worth when they see it, and Flanders "4" is the biggest value ever offered. It sells itself.

EVERY DEALER KNOWS. Didn't they all "hot hoof it" to Detroit to get the agency? Of course we couldn't give it to them all—we picked the best and of course those who didn't get it are sore. Naturally. And they are getting sorer every day.

WHEN A DEALER KNOCKS the Flanders "4"—as, of course, he must, to sell other makes—just ask him why he was "unable to get the agency when he asked for it. You won't miss one in a hundred.

MEANTIME what you want to know is how soon you can get a Flanders "4." That is the burning question with thousands. And we are doing our best to answer it definitely.

IT DEPENDS ENTIRELY on how soon your order is in our dealer's hands. We can't promise to deliver on the minute—for we have none in stock. Demand is away ahead of supply all the time. But get your order in—pay a deposit so the dealer will know you mean business and you won't have to wait more than a month—perhaps not more than two weeks. The dealer will tell you for he knows when we have promised to ship him. Or you may write direct to us and we will gladly tell you.

THE FLANDERS GUARANTEE goes with every machine. That means that if the machine we ship isn't right we will make it right. The name Flanders stands for quality—you know that.

DEALERS—This ad is published in several newspapers that circulate widely—in other towns than the one in which they are published. If you live in a town where we have as yet no representative this is your chance to obtain the best seller—because the best value—in the entire motorcycle field. Better write the factory direct today.

**The Value of System.**

The great majority of people could double their power of achievement by a little self discipline in learning so as to get hold of themselves as to depend on the prompt, decisive action of their own faculties. A little system alone would double the efficiency of many a business man who does not know why he does not get on faster. He works very hard perhaps and thinks that he has not half time enough to do what he ought to, but he could save more than half the time that he now throws away in doing things over and over again from lack of order. System is a tremendous energy saver and time saver.—Orison Swett Marden in Success Magazine.

**A Qualification.**

Rastus was honest and industrious, but, in the opinion of the new minister, unsociable. "Neighborliness, my dear friend," said the dominie, "is brotherliness. Do you take the trouble to see much of your neighbors?" "Ah reckon Ah sees as much of them as dey sees of me," Rastus replied. "Perhaps," said the clergyman, "but do you love your neighbor as yourself?" "Ah reckon Ah does, pahson," Rastus replied, "but you know, suh, Ah ain't p'tic'larly stuck on mahself neither."—Success Magazine.

**Not Her Worry.**

"My husband received a note today from a woman's handwriting." "Did you open it?" "I did not. And, what is more, I left him by himself to read it at his leisure." "Don't you worry over it?" "No, but I think he does. It was from my dressmaker."
